\*Heavy Bud™ Pro assists ripening but also adds organic matter into solution.

**Important:** Start using Bud Fuel™ Pro 10 days before flowering cycle. All feed charts should be considered as a guideline for product use. Genetics and environmental conditions are very important to consider.

**Varieties: 56 Days:** Add Final Flush™ and water during week 8. **63 Days:** Repeat week 7 and add Final Flush™ and water in week 9. **70 Days:** Repeat week 7 twice and add Final Flush™ and water in week 10.
